

Introducing CorpCare Associates, a national EAP provider since 1991.

As an ISVMA member hospital, you and your employees now have access to assistance with personal concerns and family-related issues that can affect performance and attrition.

EAP services are a cost-effective solution to prevent employee problems from becoming a problem in your practice.

Stress, compassion fatigue, and behavioral health concerns often go untreated and are the leading cause of employee under-performance, absenteeism and attrition. That's why we are introducing EAP services as a part of our effort to focus on employee wellbeing in ISVMA member practices.

Why Would Employees Need an EAP?

Personal challenges can feel overwhelming sometimes, but now your team doesn't have to handle it alone, or suffer in silence. If an employee is struggling with any of the following concerns, help is just a confidential phone call away:

- Burnout
- Compassion Fatigue
- Emotional Upsets
- Family Problems
- Alcohol/Drug Misuse
- Stress Problems
- Financial/Legal Referral
- Other Personal Concerns

What Services Does Our EAP offer?

- Confidential, Professional Assistance Services
- Access to 24/7/365 Support Services
- Three or Five No-Cost Counseling Sessions for Employee and Dependents
- Unlimited Telephonic Support
- Online Work-Life Resources
- Supervisory Consulting Services
- Work-Life Support Services
