## Virtual Schedule Mandated Courses

### **2023 Sexual Harassment Training - Webinar**

Qualifies for IDHR & IDFPR mandated requirements.

### **Oh My Log! Championing Logbook Success**

This session is designed to address various controlled substance logging challenges veterinary professionals experience by taking a practical approach to tackling the logging process in a way that champions success.

### **Opioids and Veterinary Medicine - The 2023 Wave**

This session is designed to provide attendees with an understanding of how opioids and other substances of concern are impacting veterinary medicine, what to be aware of and how to protect yourself and your practice.

### **The P's of Controlled Substance Problem Prevention**

Preventing controlled substance issues BEFORE they arise is how to achieve compliance success. This session will provide attendees with the basics of controlled substance problem prevention by focusing on four key areas.

## Virtual Schedule CVT Utilization

### **CVTs and Your Practice: What's Best for Everyone? - CVT Utilization**

This course was specifically developed to help Illinois licensed DVMs think through the best staff utilization methods to allow them the most flexibility to see a full schedule of clients while providing the best medical care possible.

### **Finding and Utilizing CVTs - CVT Utilization**

This course was specifically developed to help Illinois licensed DVMs think through the best staff utilization methods to allow them the most flexibility to see a full schedule of clients while providing the best medical care possible.

### **Implementing effective CVT Usage - CVT Utilization**

The course was specifically developed to help Illinois licensed DVMs think through the best staff utilization methods to allow them the most flexibility to see a full schedule of clients while providing the best medical care possible.
